ANISERE AKINADE

Brampton, ON, Canada • (647) 966-4305 • Anisere66@Outlook.com • 8 Clarke Haven Road

PROFESSIONAL SUMMARY

Detail-oriented Data Annotation and AI Training Specialist with robust experience evaluating language models, performing precise text/data categorization, and executing meticulous prompt engineering critiques. Proven track record of adhering to strict rubric guidelines, providing high-quality justification write-ups, and optimizing remote operational workflows for platforms like Outlier AI.

CORE COMPETENCIES & ANNOTATION SKILLS

AI Training & Annotation:	RLHF (Reinforcement Learning from Human Feedback), LLM Response Evaluation, Prompt Engineering, Factuality & Safety Alignment
Data & Quality Assurance:	Data Categorization, Rubric Compliance, Quality Calibration, Detailed Writing & Justifications
Technical & Remote Tools:	Advanced Web Research, Cross-Platform Remote Workflows, RDP & VPS Navigation, Version Control Tracking

PROFESSIONAL EXPERIENCE

AI Data Annotator & Model Evaluator
2025 – Present

Remote AI Platforms (e.g., Outlier AI) – Brampton, ON

- Conducted rigorous RLHF evaluations by comparing Large Language Model outputs against complex prompts, assessing accuracy, safety, and coherence.
- Drafted comprehensive, well-structured justification write-ups detailing model strengths, failure modes, and nuanced edge cases.
- Participated in quality calibration webinars and alignment queues to maintain peak performance ratings across specialized coding and logic projects.
- Applied strict multidimensional rubrics to score model responses accurately under tight turnaround times.

Operations & Data Support Specialist
2024 – 2025

Remote Operations Team – Brampton, ON

- Managed structured datasets, task queues, and digital information systems to streamline project throughput.
- Validated data consistency, performed meticulous quality checks, and resolved formatting discrepancies.
- Collaborated in fast-paced remote team environments to hit high-volume deliverables without compromising quality standards.

EDUCATION & PROFESSIONAL DEVELOPMENT

Post-Secondary Studies & Technical Training
Ongoing

Ontario Post-Secondary Institution – Ontario, Canada

- **Key Focus:** Information Systems, Analytical Problem Solving, and Digital Communications.
- Completed specialized online training and calibration modules for AI model evaluation frameworks.

PROJECTS & CERTIFICATIONS

- **Live-S2S-Elo Quality Calibration Project (Aether Platform):** Participated in specialized evaluation queues and calibration tracking to optimize conversational speech models.
- **Digital Workflow & Quality Assurance Certification** (2024)
